

180A Distribution Box

Overview

Current rating per terminal: 15 A. Function: combine the harnesses to store the cables in the car or boat Scope of application: power systems for cars, caravans, boats, yachts, etc. Package list: 1 x power distribution . Square D 2510M and T integral horsepower manual motor starters provide overload protection and On Off control for small AC motors. Starters can be locked in the Off or Stop position to prevent inadvertent operation. Pilot lights and auxiliary contacts are field addable. Overload heater elements are. Suitable for: The robust busbar box with modular design can be used to collect negative wiring harnesses and wires for clean and safe storage and wiring., Ltd was established in 1990, is a M1290 125-180A Industrial load isolation switch suppliers, and is headquartered in Jiaxing City, Zhejiang Province, CZ can provide users with comprehensive explosion-proof safety system solutions. Airbot Systems' distribution board not only simplifies the connection of ESCs, but also greatly reduces the number of. CZ1290 IECEx and ATEX Certified 40A, 80A, 180A Explosion-proof Distribution Box Panel Box. Supporting continuous current ratings from 150A up to 600A at a maximum of DC 48V, these distribution.
