

2016 Distribution Box Quota

Overview

In Exchange Online (Microsoft 365), a mailbox size limit depends on the assigned plan and the mailbox type. Most Microsoft 365 mailboxes are limited to 50 GB. If you have assigned Microsoft E3 or E5 licenses to your users, the mailbox limit is increased to 100GB, but it is only 2GB for the F3license. Also, depending on the assigned plan a user may. You can view the current size of a user mailbox in the Exchange Admin Center GUI (AEC). Find a user in the Recipients section, open its properties and go to the Mailbox Usage section. The screenshot shows that the current mailbox size is 26 MB (0% used of 100GB available). However, it is easier for me to use PowerShell Exchange Management Shell to get. To limit the size of Exchange Server mailboxes, quotas are used. You can configure a quota on the mailbox database or specific user mailbox level. You can list the current Exchange mailbox database quotas as follows: `Get-MailboxDatabase -Identity MUN-MBX2 | fl *quota` Quotas are set using three options: 1. IssueWarningQuota— a mailbox size when a use.
