

## Cost of fiber optic cable duct laying

### Overview

The cost to install fiber optic cable ranges from \$1.50 to \$42 per foot, with installation costs accounting for 60-80% of total project expenses. According to the Fiber Broadband Association's 2025 report, median costs are \$8 per foot for aerial builds and \$18 per foot for. Buyers typically pay a wide range for laying fibre, driven by terrain, routing, and installation method. Whether you're expanding your data center, connecting multiple buildings, or future-proofing your connectivity, accurate pricing information helps you budget effectively. This article provides practical USD ranges and breakdowns to help. Fiber optic cable is buried in tubes, known as a conduit, which are placed by means of plowing, trenching, jack and bore, multi-directional bore, or directional bore techniques. As shown below, machinery from manufactures like Ditch Witch, is used to plow, trench, and bore into the ground: Conduits. Leased lines are dedicated symmetrical broadband connections that provide businesses with the most reliable and stable high-speed internet access.
