

Tonga 24-core smart building optical cable manufacturer

Overview

Tonga Cable Limited was formed in November 2009, with approval of Government of Tonga, to build and manage a submarine fibre optic cable to connect Tonga to an international network service. The cable cost was around T\$36 million and was financed through grants from the World Bank Group and the Asian Development Bank. Fiber Core and Cladding: Choose from a variety of core and cladding diameters to optimize performance for your specific. The Tonga-Fiji Submarine Cable System (also known as Tonga Cable) is a 827km fiber optic submarine cable system linking Nuku'alofa, Tonga and Suva, Fiji, and connects to the Southern Cross Cable Network at the Suva Cable Landing Station in Fiji. The optical fiber elements are typically individually coated with layers and contained in a protective tube suitable for the environment where the cable will be deployed. Starting custom.
