

UK Certified Modular Waterproof Data Center

Overview

Expertly designed, tested, and deployed by EfficiencyIT, ModularDC provides a fully integrated and ultra-secure data centre solution, including customization options for RF-shielding, enhanced physical security, acoustic mitigation and SCIF-compliance. All our modular room builds have options to meet NPSA forced entry standards for the protection of UK Government assets, information or critical national infrastructure. Schneider Electric Prefabricated Modular Pod Data Center is engineered for speed, scalability, and flexibility. It supports up to 40+ high-density. Mavin Powercube design, build and maintain custom, scalable low - medium - high power and secure Containerised Modular DataCentres (CMDC's), Edge Data Centres, Special Container solutions and Modular data centre rooms and buildings. Assembled internally or externally in an existing computing facility, these solutions are designed to go be deployed exactly where you need them. Contact our Specialist Today! Secure.

Article Content

Modular Data Center Solutions

Deploy technology at the edge or anywhere your data is generated with modularized, integrated racks built outside traditional data center constraints.

Modular Data Centre Solutions

Our Modular Data Centres are incredibly versatile, designed to be suitable for both external and internal placement. Whether you need a self-contained room within

DataCube™ Prefabricated Mobile & Modular Data Centre Solutions

Our range of DataCube™ Prefabricated Mobile Data Centre solutions will deliver power and cooling for the most demanding of applications whilst helping to protect ICT from hazards. This scalable

100 companies for Modular Data Center Construction in

Datacentres UK specializes in modular data center construction, offering turn-key and bespoke builds that are scalable and highly resilient. Their innovative

DCUK Modular Builds — Datacentre UK

Modular Data Centres Initially developed for military deployment in the field, modular and containerised data centres have become a popular solution to certain environmental and logistic challenges,

Mobile Data Centre | Technical Mobile & Modular Building

DataCube™ Prefabricated Data Centre Building Options When it comes to prefabricated data centre design, build, and maintenance, Workspace

Prefabricated Data Centres | Modular Data Centres

Fully integrated, secure, and scalable solution - combining power, cooling, monitoring, and physical infrastructure in a modular enclosure to simplify

Modular Data Centers - Edge Data Centers | Dell UK

Purpose-engineered modules that deliver scalable, long-term, and sustainable data center capacity anywhere compute is needed

Modular Data Centres | Containerised Data Centres

Modular Data Centres Our modular containerised buildings provide a climate-controlled and highly efficient and cost-effective solution within which to provide a

100 companies for Modular Data Center Construction in

When exploring the Modular Data Center Construction industry in the United Kingdom, several key considerations emerge. Regulatory compliance is critical,

Top 10: Modular Data Centre Companies

Discover the top 10 companies driving the future of modular data centres with innovative, scalable and sustainable infrastructure solutions. As

Smarter Infrastructure for Medium-Sized Sites: Modular Data Centres

Modular Data Centres Designed for Medium-Sized Operations Cannon's SMART Modular and SMART MDC platforms are pre-engineered to simplify how medium-sized organisations deploy

Containerised, Portable & Modular Data Centres

Containerised, portable, and modular data centres provide a cost-effective and flexible solution. By utilising existing spaces, they remove the need for extensive

Top 10: Modular Data Centre Companies

Which companies are leading the field for modular data centres? Discover the top 10 companies driving the future of modular data centres with

Modular Data Centres | EfficiencyIT

Design and Deploy Highly-Secure Modular Data Centres in 12-16 Weeks Add capacity, decrease operational risk and expand your on-premise capabilities with

Modular Data Centres UK: Scalable Tech Solutions

Uncover the future of modular data centres in the UK—exploring scalable infrastructure, deployment speed, and flexible operations for modern enterprises.

Prefabricated Data Center Modules | Schneider Electric UK

Schneider Electric Prefabricated Modular Pod Data Center is engineered for speed, scalability, and flexibility. It supports up to 40+ high-density racks per pod with

SMART Modular Data Centre Solutions

Cannon Technologies Modular Data Centre Walk Through Cannon Technologies Ltd Watch on A multi award winning, rapidly deployable Data Center of modular

Modular Data Centre

Modular Data Centre Centiant's modular datacentres provide a flat-packed ready-to-build datacentre infrastructure that can be transported and built at any site. A truly

EcoStruxure™ Modular Data Centre

Transforming data centre design and construction, modular data centres conquer space challenges and support quick scaling in industrial environments.

Modular Data Centre

These units offer high resilience, security and are built using proven high specification components for outdoor and indoor locations. They are rapidly

Modular & Portable Data Centers

At Devis, we design, manufacture, and deploy advanced modular and portable data centers, ideal for rapidly changing environments or locations with critical operational demands. Our scalable solutions

Modular Data Centre Design & Build

Saradan offer full modular design, from containerised builds to true pre-fabricated panel modular data centres delivered in weeks.

Modu-Lite | Modular Data Centre Solutions

We identify and secure underutilized or low-value land parcels - such as brownfield or disused industrial sites - ideal for repurposing into sustainable, off-grid modular data centres.

Modular Data Centres | Secure I.T. Environments Ltd

Secure I.T. Environments Ltd provides scalable modular data centre facilities of any size from small four-cabinet server rooms to multi-storey centres, accommodating
